

Message from the Principal

Warm Greetings!

Education is not an act of acquiring knowledge but learning a skill to lead life and forming one's personality. It is a proud moment for me and my team to see thousands of students pursuing higher education in our institution. SRIT is a place not only to learn but also to build character and helps in the holistic development of students. SRIT is progressing in an exponential rate since its inception in 2002. Many notable achievements have been recorded since then. I earnestly hope and trust that my esteemed academicians and budding technocrats will work with sincerity, honesty and dedication and thereby contribute to make this world a better place to live in.
